Her variations are often full & good - with weak places.

Jean's work on the whole has been satisfactory. English Grammar still weak. Arithmetic improving.

Good work on the whole. V.K.

Jean seems to have found the work in III.B. rather difficult. This may be due to her physical condition - a little excitable & nervous - I.M.

Sometimes good. She has clearly improved from absence. E.K.

Jean missed the beginning of the term work through illness. Was absent also during the last two days of examinations - hence incomplete answers. Her work is improving all round. I.M.

Good on the whole. With weak places. E.K.

Jean has not been doing such good work this term as she ought to have done. I.M.

Very good & sensible reaction as a rule - E.K.

Jean has done well this term - has made more progress than ever before in Mathematics & Languages where she has always found difficult. I.M.

She shows continued interest & intelligence. F.K.
Jean's work is fairly good. Mathematics & languages are still very weak. She has had special attention this term in mathematics, but has not taken advantage of it. English grammar is improving. She is at the beginning of Bk III so could not take set examination. 1 M. Times about 0

much interest apparent. F.K.
Jean does not do justice to herself in examinations. Her class work has definitely improved, but she must take more care with her written work. Need not have so many spelling mistakes. Arithmetic examination disappointing. She has worked conscientiously in this subject this term. Absent 10. 1 M.

Sometimes good work. B.K.
Jean could make more sustained effort. She has worked hard in mathematics and class work has been satisfactory. 1 M. Absent 0.

as a rule, she shows promise. Her work is P.U.S. generally, but her first term at school she promises to do well. Reading, Writing, History.

Fairly good - she shows intelligent interest. Verse - ideas are there but do a little less more carefully. But's work continues to show improvement, a more lively interest than formerly, though still works essentially due to her natural disposition.

Good work often; sometimes very good - E.K.

Work has improved this term. Her set programme work in Arith. was not quite finished - but what has been done has been well done. Spelling mistakes are often due to carelessness - I.M.

A conscientious hard worker. Has begun Algebra but finds it difficult. I.M.

A fair paper often rather weak. V.K.

There is good work but many reports are short. E.K.

Dorothy works with enthusiasm & interest but in her eagerness does not always give herself time to think. I.M.

Good work sometimes

work progress satisfactory. She is an eager worker sometimes impulsive & thus inaccurate. Has made a good beginning in Geometry. I.M.

Good on the whole though not often very strong. E.K.

Is a conscientious worker & tries hard. Sometimes keeps herself back by being afraid she is not going to understand. Absent O especially in Math & French. She works with III B. in Civics & they are a few pages behind rest. I.M.

She works well & conscientiously & is making satisfactory progress. I.M.

A fair paper. E.K.

Dorothy works with much energy & enthusiasm but requires to give more steady calm thought to it. I.M.

Not very strong - E.K.

Dorothy is a very conscientious worker but will not have nearly good results until she tackles difficulties boldly. Her marks in these subjects are not due to lack of effort. It is obvious she works with more interest & she will be in a better division next term & so more in her depth. - I.M.

It is difficult to give a true relative value to work so much dictated. The above values are given as if for 'self' written work. Perhaps 10% of Mary's ability to read is a great handicap to obtain very intelligent work. Reading is gradually but certainly improving I.M.

She should hold her own when the reading & writing come, meanwhile it is hard to compare her with others. L.K. She has the unfortunate handicap not being able to read. Apart from her reading Mary does very intelligent work & is quite up to the standard of her form. Her reading is making progress. Because of her particular difficulty answers to questions are dictated. These she has written are not unaided in spelling, except in Dictation. Paper. I.M.

Optim. v.g. narration - but for the fact that it is dictated (described somewhat in the marking) Examinations have still to be dictated because of her peculiar difficulty in reading. Her work in school in all other subjects is good. Her work in school in all other subjects is good.

She is greatly handicapped in expressing herself. But this cannot wholly or mainly account for the weakness. The spelling world, of course, he had in II - L.K. Mary is a thoughtful person and contributes much to the work of the class. Absent 1.

A good little paper in some subjects. F.K. Work is fairly good. Reading is satisfactory but number slow. Absent for picture "Flight into Egypt" but decided "St. Christopher" instead. Has progressed well in French. I.M.

She has made a good try & shows plenty of interest. F.K. Narrations are improving but she does not always listen. Reading is good but she finds number difficult. I.M.

Fair - often very short & disappointing. F.K. Shelah rarely attends to his lessons & until she has learnt to concentrate she will not do any good work. I.M.

Sometimes fairly good. F.K. Shelah has begun to make up & make some interest in her lessons, but her power of concentration is still very poor. I.B.

After good and smooth narration but Geography & Nature are rather disappointing. Painting good. E.K. seems to be falling into the work of I.A. satisfactorily - is still inclined to dream but narrations have improved this term. Numbers is much below standard. I.M.

She shows keen interest, but narration is short as yet. E.K. Morna's second term of neat consecutive work - she is making satisfactory progress on the whole. She is a dreamer but when she gives her attention on the matter in hand can do very well. Numbers is still below standard. I.M.

She has a fairly good grasp of the work & sometimes narrates well. Morna's painting are v.g. E.K. takes along time to express herself & is still a dreamer. Can give v.g. narrations. Numbers though below standard is very much improved - she enjoys it. I.M.

Sometimes v.g. with weak places. E.K. at first Morna made little headway in I.B. but improved considerably as the term went on. Spelling is weak. Anth. has progressed very well this term although still much below standard. I.M.

Often good but rather short, even when dictating. E.K. Morna's work will not be really satisfactory until she can learn to apply her mind to it & not to day dream. When she attends she can do very good work. She is much below standard in Anth., but in gaining ground rapidly. I.M.

Morna's work is gradually improving. She appears to dream in class too much & narrations are too often incomplete or wrong. I think she absorbs more than she deserves to give out. She has accordingly done 3 more pages of Bulletin I & has worked very well in Bulletin II - I.M.

Has good work especially painting. She must work at the writing & spelling. E.K.

At good paper and a rule. Painting very good. The right having been about 90 a time & a half due to illness Jennifer returned on the 4th week of this term. Her work has improved. I.M.

One excellent narration. The rest are usually short. Painting good. L.V. although now in the II.B. she continues as a day pupil, but by Peter's order does not attend afternoon lessons. Hence no singing, handicraft or drawing marks. Narratives excellent. Dreams in birth. When left to work alone, a pity as she can do quite well. I.M.

Continues fairly good and generally to the point. E.K. Oral work is nearly always V.G. Writing & spelling weak. Peter still speaks afternoon school hence no handicrafts. With exam. pos. I.M.

Much interest - handicapped by the writing - narration often V.G. E.K. Work in school good & intelligent. She requires much hard work in spelling & writing. Arithmetic though still below standard has progressed satisfactorily. I.M.

He has made a fair try & should soon grow strong. E.K.

Returned to school this term after two terms absence due to illness. Before this long absence he had had very little education because of ill health. Soon his return had to start from the beginning of Reading & Number. He has made rapid progress particularly in Reading. He is learning to overcome his intense shyness. He has a good memory. English History V.G. I.M.

Is slowly making up for lost time but though previous illness, but is too often inattentive. seldom narrates in class but will mutter the story to himself while someone else is narrating. Is now in Beacon Reading II. Mutual with better than with work though still much below standard. I.M.

He has made a good try. E.K.

A good paper as a rule though narration is short. E.K.
Has improved in all subjects though still very much below standard for his age due to previous illness. He is narrating quite well. Number is slow but making progress. I.M.
